

DAY 4: HOW SHOULD I BE BAPTIZED

Often times we have people ask us, “I was baptized as a baby. Should I be baptized again?”

We believe that the Bible paints a clear picture of being baptized by being immersed in the water (going completely under water) instead of being sprinkled. And if we’re honest, none of us even remember being one or two years old, and at that age we do not understand the weight of our sin and what it takes to truly follow Jesus. That’s why we believe that baptism is by immersion for people who are of an age where they can understand the commitment they’re making. So long story short, if you were baptized/sprinkled as a baby, we believe that being baptized now as a teenager/adult can be a really encouraging and powerful event. A decision you are making and not one that is being made for you.

To be able to take the opportunity, now that you fully understand the significance of the decision, is certainly exciting and could be your next step!

Read: Matthew 3:13-17 | Acts 8:26-40
